Preferred ... 200 New York, Nov. 1.-Operations stocks today were of an exceedingly desultory character and interest in the market was languid in advance of the holiday tomorrow. The observance of All-Saints' day in London and Paris today also subtracted materially from the vol-ume of the day's business and deprived the market of an index of sentiment on the international money outlook, which is much relied on at present. The money market proper sent encouraging news from abroad, and this was a prime fac-

ey market proper sent encouraging news from abroad, and this was a prime factor in the early rise in prices of stocks here. The weekly statement of the German bank disclosed some heavy inroads on resources, incident to the November settlements, and the private discount rate in Berlin rose a fraction.

The Bank of England secured all of the \$3,560,000 South African gold arriving in the London market without competition and at a further recession in the price, which wipes out, in effect, the recent premium over the obligatory price to be paid by the bank which has prevailed while other centers were competing for London gold supply. This was looked upon as gratifying evidence of the satisfactory progress of recuperation in the Bank of England's condition.

The effect was helpful to the New York stock market, notwithstanding the absence of direct operations in the local stock market, notwithstanding the absence of direct operations in the local stock market on behalf of London.

There was a striking diversion to low-priced industrial stocks and specialties, while the more prominent trading stocks were neglected. The minor members of the street group, especially the railroad equipment stocks, were conspicuous. The influx of new orders for equipment from this movement.

he railroads was partly responsible for

Something was made of the reported large sales of copper during the last few days, but the cupper industrials did not hold well and sagged with the receipt of copper quotations from London showing

decline in prices. The speculation looked somewhat askance at the terms announced for the askance at the terms announced for the new Pennsylvania stock issue, which was at a lower price than had been anticipated. As between the increased value of the subscription rights to the individual stockholders and the low credit for the corporation involved in the issue at par of a stock selling in the market in the suichborhood of 198 the appraisament the neighborhood of 148, the appraisement of the operation was somewhat confused The resort to a stock issue at all in place of a bond issue is testimony to the faulty investment demand for fixed interest-bearing securities, which has been marked in the stock market during the stages of speculative demand for

The 6 per cent dividend rate now exleft unchanged by the day's declaration represents, if maintained, a high rate to pay for new capital. The proceeds are to provide for the payment of \$80,000,000 of collateral notes which bore 5 per cent and for \$20,000,000 of 6 per cent bonds falling due next year.

The stock market tone became someunchanged by the day's declaration

falling due next year.

The stock market tone became somewhat drooping after the news of the Pennsylvania directors' action.

Bonds were irregular. Total sales, par value, \$3,393,000. United States 2s de-

GRAIN AND PROVISIONS.

Chicago, Nov. 1.-Wheat was inclined to weakness almost all day today, although slight rallies occurred at times on cover-ing by shorts. Despite the overwhelmingly bearish character of news, the selling was not aggressive and the volume of trading was small. The market closed weak at almost the lowest point of the day, the December delivery closing at 1.04%, after selling between 1.04% and 1.05%.

One of the principal depressing factors was the almost record-breaking wheat movement last week from Russia, total shipments being 7,728,000 bushels, only 64,000 bushels short of the greatest amount ever shipped from that country in one week

The corn market was firm early in the The corn market was firm early in the session. The market weakened during the final hour of the day. Prices at the close were almost at the lowest point and at net declines of 4.0%c to %c.

Trading in oats was exceedingly quiet. The close was easy, with prices a shade to 4.0%c lower than Saturday's final figures.

Figures.

Provisions were weak. Local packers were among the leading sellers. Prices closed 5@T\(\frac{1}{2}\)c to 12\(\frac{1}{2}\)c lower.

The leading futures ranged as follows: WHEAT-
